

SOLIDWORKS Visualize Boost will Save You A Boat-load of Cash Each Project

Want to render jobs in a fraction of the time?
Then **SOLIDWORKS Visualize Boost** is your answer.

“Thanks to the render power shared between our Visualize Boost machines, we have nearly quadrupled our production capacity. This enables us to create a ton of images and animations in a short time, while keeping the quality truly photographic, which is one of the main strengths of Visualize.”

ZAMAK Design – leading product design consultancy

These are some of the benefits of deploying Visualize Boost:

- Instantly boost your design productivity
- Iterate at breakneck speeds which shortens design cycles and saves cost
- Reduce costly physical prototypes
- Squash your competition by beating them to the market
- Render loads of jobs in parallel while continuing to set up next render jobs in Visualize Pro
- Create more engaging content in the same amount of time as still images
- Render more content faster than ever before!
- **Dramatically increase ROI on each product cycle**

WHAT IS SOLIDWORKS VISUALIZE BOOST?

- Visualize Boost is our proprietary network rendering technology allowing you to send render jobs to a dedicated cluster of machine(s) to **instantly boost render spend** and content productivity. Similar to a printer queue in your office, Visualize Boost allows Visualize Professional users to send render jobs to other machine(s), freeing up your machine to keep using Visualize, CAD, or other demanding applications.

ONE SEAT OF VISUALIZE BOOST IS INCLUDED WITH EACH SEAT OF SOLIDWORKS VISUALIZE PROFESSIONAL!

HOW WILL IT SAVE ME TONS OF MONEY EVERY PROJECT?

- Remember this old adage; **time = money**. Well creating time is Visualize Boost's bread and butter. Faster content production means accelerated design process, which means faster iterative cycles, allowing you to **beat your competition to the market** and ultimately make more money.
- **Create more dynamic and emotional content** which allows your project pitch to stand out from the crowd or your target market to line up to buy your product. Get noticed with Visualize Boost!
- Skip costly rounds of physical prototyping and rely on the speed of Visualize Boost and photo-quality of Visualize Pro to create virtual prototypes.
- Simple as that. Deploy Visualize Boost and rake in the dough.

WHO SHOULD BE USING IT?

- Anyone who needs to dramatically increase their render output can use Visualize Boost. This could be **designers, engineers, or even your marketing team**.

HOW TO GET STARTED?

- If you already have [Visualize Professional](#) and are on active Subscription, **you receive Visualize Boost complimentary!** Download Visualize Boost using the SOLIDWORKS Installation Manager.
- Need to purchase more Visualize Boost seats? Simply contact your SOLIDWORKS Reseller.
